CONFERENCES

December 3-4, 2015. NAM/IOM Board on Global Health: [Exploring Shared Value in Global Health and Safety – A Workshop](#) (Washington, DC)

January 6-7, 2016. [PHEMCE Stakeholders Workshop 2016](#), National Institutes of Health (Bethesda, MD). This two-day workshop will highlight past progress and future directions in developing, stockpiling and effectively utilizing the drugs, vaccines, and devices that may be required in public health emergencies caused by either naturally occurring epidemics or intentional chemical, biological, radiological and nuclear attacks. The workshop will feature a mix of plenary sessions and in-depth breakout sessions along four tracks: *Operational Capacity and Effective Utilization*; *Federal Initiatives and Progress*; *Industry Partnerships*; and *Emerging Infectious Diseases*.
